Subject: RE: Powertech for uranium mining

Thank you for emailing me your comments on the draft UIC Dewey-Burdock permitting actions. I have added your email to the list of public comments received. I have also added you to my contact list to keep you informed on future EPA activities related to these proposed actions.

Thank you!

Valois

Subject: Powertech for uranium mining

These Lands belong to the Native Tribes, they are Sacred and/or Treaty Lands. This proposal will deface and pollute and contaminate the land. Why is this necessary? We need clean water & land more than we need uranium. After doing some research, most of the uses are for military situations. The half-life is 4.5 BILLION years--really, you want to pollute/contaminate the land & water for the next 4.5 billion years? The world has some really innovative scientists who, I am sure, can come up with better ideas which won't destroy our Blue Planet. Next, you want to force the ugly waste back into the earth where it can devastate the aquifers--boy, you are just full of great ideas. Would you take that water back to your family & friends to drink or wash in or swim in or water your plants in? If you don't want this kind of stuff for your neighborhood, WHY, do you think it is a good idea for others? Please re-think this, it is NOT good for the land or people.

In serious doubt,
